

# **Impact Canvas**

### Progettare, misurare e migliorare il ruolo sociale delle industrie culturali e creative

Marzia Cerrai – Fondazione Sistema Toscana

# Il consorzio di Me-Mind

- 2 organizzazioni culturali:
  - Museo Nazionale Estone
  - Internet Festival (FST)

- 1 centro di ricerca:
  - Dipartimento di informatica dell'Università di Pisa
- 1 agenzia creativa:
  - Domestic Data Streamers

# Me-Mind in breve

- COSA: Misurare l'impatto economico, sociale, culturale, ambientale generato a livello locale dalle attività culturali.
- COSA: Facilitare le ICC nella misurazione dell'impatto fornendo loro **strumenti** adeguati
- COME: Applicare tecniche di **data science** per la raccolta e l'analisi dei dati.
- COME: Utilizzare tecniche di data visualisation per raccontare i risultati dell'analisi dei dati

# La sfida di Me-Mind

- Facilitare la misurazione di impatto sulla base dell'identificazione dei **pubblici** e dei loro **bisogni**.
- Non limitare la misurazione a standard esterni richiesti da promotori, finanziatori, sponsor.
- Portare la misurazione dell'impatto all'interno della circonferenza degli obiettivi, della missione e delle soluzioni di ogni organizzazione.
- Uscire dalla logica della misurazione degli output.

# Tappa 1: identificazione delle metriche

- Sono state identificate **domande chiave** a cui rispondere per comprendere l'impatto e il cambiamento generato.
  - È stato utilizzato il "Culture for Development Indicators" di Unesco
  - Sono stati individuati 97 indicatori

 $\Box$ 

PBI

Ξ

# Tappa 2: Identificazione dei dati

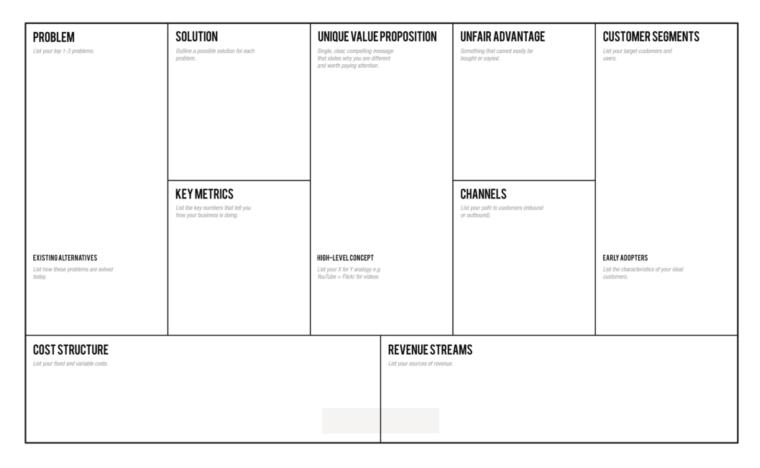

- Stabilite le metriche, sono stati identificati i dati necessari e le fonti da cui recuperarli.
  - Tipologia di dati possibili:
    - Qualitativi | Quantitativi
    - Strutturati | Non strutturati
    - Interni | Esterni

# Un modello da cui partire

### Lean Canvas di Ash Maurya

# L'Impact Canvas di Me-Mind

\_\_\_\_\_

#### Una duplice direzione di utilizzo

- 1. Per organizzare un nuovo servizio
- 2. Per **verificare il valore** di un servizio che stiamo offrendo

In entrambi i casi il canvas invita a riflettere sull'impatto e sui dati necessari per misurarlo fin dalla fase di pianificazione delle attività.
